**2008 Commitment Form**

A full-season's share includes at least 23 weeks of produce distributed weekly at the farm, June 10 through mid-November, 2008. A week's share will range from 5 to 16 pounds of vegetables depending on the season and the weather. This share size can be suited for 1–4 adults depending on your personal veggie consumption and cooking habits. Summer only (June–Labor Day) shares also available.

Shares include a variety of pick-your-own (PYO) crops such as peas, beans, cherry tomatoes, fresh herbs and flowers as well as a weekly newsletter with information on the vegetables and the farm, recipes and food prep suggestions.

On pick-up days, members may have the opportunity to purchase locally raised eggs and other featured items from neighboring farms.

Members will choose one day of the week to pick up their shares: either Tuesday afternoons, between 3 and 7 pm or Saturday mornings from 10 am until noon. Members may only pick up vegetables on their chosen day (i.e. may not alternate pick-up days or use the other timeslot as a back-up time). If you are running late on your pick-up day, we can hold your share for you for 24 hours **if you call before or during pick-up hours** to make this arrangement. Unclaimed shares will be donated to the Sheffield Food Pantry or appropriate alternative.

Volunteering on the farm is highly encouraged but optional. Members may help in the field, in the office, on the road or at the distribution table. For those who would like to make a structured work commitment, a limited number of work shares will be available for the 2008 season.

Payment in full is requested at time of registration, providing Farm Girl Farm with operating capital when its needed most, at the beginning of the growing season. If you are unable to pay in full upon registration, you may make a deposit of \$215, followed by two equal payments of \$150 due March 30 and May 31. *A signed commitment form with up-to-date payment is required in order for you to begin picking up your first share in June.*

#### *SAMPLE SHARE*

Here is an idea of what you might pick up in a given week (weather dependent):
